¹ APR=Annual Percentage Rate. Example rate of 5.49% APR with 120 monthly payments = \$108.48 per \$10,000 borrowed, assumes .25% discount for enrollment in automatic payments. Rates quoted assume excellent borrower history. Your actual APR may vary and will be determined when a credit decision is made. A \$125 processing fee to be collected with application. All loans secured by a UCC-1 financing statement. Selected contractors must be licensed and approved prior to loan approval. Rates, terms and conditions subject to change. Additional terms and conditions apply.

² Under federal law, you may receive a tax credit equal to 26% of the cost of your solar for systems installed in 2020-2022, and 22% for systems installed in 2023. Other state-level incentives may apply. Contact your tax professional for specific advice as to whether the credit is allowable on your tax return.
